Preserve archival information and share local history

Auto-Graphics' Digital Collections is a simple and affordable web-based solution that assists libraries with the creation and display of digital assets. Libraries can easily share their resources by placing these items, which were once limited to internal library viewing only, online for patrons to conveniently search and discover. The solution includes all of the necessary cataloging, search and display software to get started. Use our simple, user-friendly web form for entering collection data, or add our AGCat Editor MARC tool for more extensive cataloging needs.

As a Digital Collections user, you can share your digital assets with your own community, and with our online Member Community.
