**Auto-Graphics, Inc. Announces Appointment of a New Director**

**POMONA, Calif. — (BUSINESS WIRE)—April 11, 2007—Auto-Graphics, Inc. (OTCBB: AUGR) (Pink Sheets: AUGR)**, a technology innovator providing library automation solutions for over 35 years, announced that Lawrence S. Hebert has been appointed to the Board of Directors filling the seat vacated by James R. Yarter who retired from the Board of Directors on December 21, 2006. The Board of Directors has endorsed and nominated Mr. Hebert to fill the seat for the ensuing one year term following the Annual Meeting scheduled on May 10, 2007.

Mr. Hebert brings a solid background to his new position which includes an MBA from The Graziadio School of Business and Management at Pepperdine University and a BA from California State University at Sacramento. In 1994, Mr. Hebert founded Hebert & Associates, a consulting firm specializing in crafting and implementing business strategies while achieving operational efficiencies through organizational excellence. His professional expertise focuses on sound financial management, niche marketing, assessing industry and competitive environments and personnel alignment. In 1995, Mr. Hebert developed and, as Associate Director, currently manages the Executive MBA program for The Graziadio School of Business and Management at Pepperdine University in northern California. The Board expects that Mr. Hebert's background, experience and extensive contacts in the high-technology sector will assist the Company in expanding its products and technology into new commercial markets.

**About Auto-Graphics, Inc.**

Founded in 1950, Auto-Graphics has been a technology innovator for more than five decades, providing data automation solutions to customers across multiple industries. For the past 35 years, Auto-Graphics has helped libraries of all sizes become more efficient and patron-centric. Its flagship solution, AGen, is one of the most comprehensive library automation platforms available today, allowing libraries of any size to manage, share and search their resources. The AGen integrated product suite – currently used by more than 5,000 libraries in North America – comprises a complete ILS system for public libraries; a robust ILL solution for consortial entities and member libraries; and a powerful federated search solution for both public and academic libraries.
