**Auto-Graphics, Inc. Announces Retirement of a Director**

**POMONA, Calif. — (BUSINESS WIRE)—February 6, 2007—Auto-Graphics, Inc. (OTCBB: AUGR)**

**(Pink Sheets: AUGR)**, a technology innovator providing library automation solutions for over 35 years, announced that James R. Yarter, a director and member of the Audit Committee since June, 2001 has retired from the Board of Directors effective December 21, 2006 to pursue other interests. Mr. Yarter has been instrumental in guiding the Company through a difficult period of litigation and restoring the Company to financial health and profitability. The Board and the Company appreciates the contribution made by Mr. Yarter over the last five years. The Board plans to identify and propose a Director to replace Mr. Yarter at the next Annual Meeting in May of 2007.

In association with Mr. Yarter's resignation, the Board of Directors has agreed to repurchase Mr. Yarter's 637,710 shares of common stock at \$0.85 per share for a total cost of approximately \$542,000 in the first quarter of 2007. The Board has also agreed to purchase Mr. Yarter's 140,000 stock options at \$0.85 per share for a net cost of approximately \$66,000 in the second quarter of 2007. Following this transaction and the recently completed tender offer in November 2006, the Company will have repurchased a total of approximately 1,043,000 shares at a total cost of approximately \$895,000. These transactions will reduce the Company's shares outstanding to 4,297,610 and fully diluted shares outstanding to 4,727,510.

**About Auto-Graphics, Inc.**

Founded in 1950, Auto-Graphics has been a technology innovator for more than five decades, providing data automation solutions to customers across multiple industries. For the past 35 years, Auto-Graphics has helped libraries of all sizes become more efficient and patron-centric. Its flagship solution, AGent, is one of the most comprehensive library automation platforms available today, allowing libraries of any size to manage, share and search their resources. The AGent integrated product suite – currently used by more than 5,000 libraries in North America – comprises a complete ILS system for public libraries; a robust ILL solution for consortial entities and member libraries; and a powerful federated search solution for both public and academic libraries.
