Notes to Unaudited Consolidated Financial Statements

**Note 1.** The unaudited consolidated financial statements included herein have been prepared by management and include all normal and recurring adjustments which are, in the opinion of management, necessary for a fair presentation of the financial position at March 31, 2007, the results of operations and the statement of cash flows for the three months ended March 31, 2007 and 2006 in accordance with accounting principles generally accepted in the United States of America. The consolidated financial statements include the accounts of Auto-Graphics, Inc. and its wholly owned subsidiary, A-G Canada Ltd. The Company has no so-called special purpose entities or off-balance sheet or derivative financing of any kind. All entities have been consolidated and all material intercompany accounts and transactions have been eliminated.

The results of operations for the subject periods are not necessarily indicative of the results for the entire year.

This Quarterly Report is qualified in its entirety by the information included in the Company's Annual Report for the period ending December 31, 2006 including, without limitation, the financial statements and notes therein.

**Note 2.** In August 2006, the bank renewed and extended the Company's credit facility through May 1, 2008. The credit facility is composed of a \$500,000 revolving line of credit for working capital and a second \$1,000,000 five-year term facility to fund major investments. The interest rate on both credit facilities is the bank prime rate (8.25% at March 31, 2007) plus a 1.0% margin or 9.25% at March 31, 2007. The credit facility is secured by all of the assets of the Company and its subsidiary, A-G Canada Ltd. and requires that the Company maintain certain minimum financial covenant ratios. The Company was in compliance with all of its financial loan covenants, there were no outstanding borrowings under either credit facility and there was \$1,500,000 in available credit as of March 31, 2007.

**Note 3.** Statement of Financial Accounting Standards No. 131, "Disclosures about Segments of an Enterprise and Related Information" establishes standards for reporting information about operating segments in interim and annual financial statements.

| Foreign – Canada/Other  | --           | --           |

**Note 4.** Deferred tax assets and liabilities are recognized for the expected future tax consequences of events that have been reported in the Company's financial statements or tax returns. At December 31, 2006, the Company had available net operating loss carryforwards of \$2,552,000 for federal income tax purposes, \$1,139,000 for state income tax purposes and \$49,000 for foreign income tax purposes. These net operating loss carryforwards expire from 2020 to 2024 for federal taxes, 2012 to 2013 for state taxes, and 2010 to 2013 for foreign taxes.

**Note 5.** Earnings per Share

Statement of Financial Accounting Standards No. 128, "Earnings per Share" requires the presentation of basic earnings per share and diluted earnings per share. Basic and diluted earnings per share computations presented by the Company conform to the standard and are based on the weighted average number of shares of Common Stock outstanding during the year. During the three months ended March 31, 2007, no stock options or warrants were issued.

Stock Purchases

In February 2006, the Company purchased 185,000 shares of its outstanding common stock in a private transaction for a total cost of approximately \$83,250. The share repurchase transaction was approved by the Board of Directors, major shareholders and reviewed by the Company's primary bank. These shares were retired and returned to authorized but unissued common stock.

On December 21, 2006, James R. Yarter, a director and member of the Audit Committee since June, 2001 retired from the Board of Directors. In association with Mr. Yarter's retirement, the Board of Directors has agreed to purchase Mr. Yarter's 637,710 shares of common stock at \$0.85 per share for a total cost of approximately \$542,000 in the first quarter of 2007. These shares were purchased in February 2007 and were retired and returned to authorized but unissued common stock. The Board has also agreed to fully vest and purchase Mr. Yarter's 140,000 stock options at \$0.85 per share for a net cost of approximately \$44,000 (net of tax) in the second quarter of 2007. The Company has accrued a liability in the amount of \$119,000 at December 31, 2006 for the purchase to be completed in 2007.

**Note 7. 2002 Qualified and Non-qualified Stock Option Plan**

The Company adopted a qualified and non-qualified stock option plan following approval by its shareholders at its 2001 annual shareholder's meeting held on February 27, 2002. The 2002 Stock Option Plan was amended on October 21, 2004 to increase the number of available options to purchase shares to 800,000. As of December 31, 2006, the Board of Directors has granted options for a total of 705,000 shares of which 135,000 have since been forfeited, 140,100 shares exercised for a net total of 429,900 shares granted and unexercised at an average market price of \$0.42. Of these granted shares, 342,400 shares have vested and are eligible for exercise. Under the plan, the stock option price per share for options granted is determined by the Board of Directors and is based on the market price of the Company's common stock on the date of grant. The stock options vest over four years and no option can be exercised later than ten years from the date it was granted.

Notes to Unaudited Consolidated Financial Statements

In December 2005, the Financial Accounting Standards Board (“FASB”) reissued SFAS No. 123R, “Share-Based Payment.” This Statement is a revision of SFAS No. 123, “Accounting for Stock-Based Compensation,” and supersedes APB Opinion No. 25, “Accounting for Stock Issued to Employees.” This Statement establishes standards for the accounting for transactions in which an entity exchanges its equity instruments for goods or services. This Statement requires that the cost resulting from all share-based payment transactions be recognized in the financial statements effective as of the beginning of the first interim or annual reporting period beginning after December 15, 2005. The Company has adopted this Standard in 2006 and applied the Standard using the modified prospective method from January 1, 2006. The valuation provisions of SFAS 123R apply to new awards and to awards that are outstanding on the effective date and subsequently modified or cancelled. Under the modified prospective method, prior periods are not revised for comparative purposes. The Company determined compensation cost based on the fair value for its fully vested stock options at grant date, under SFAS 123R, the Company's total compensation expense will be approximately \$6,000 (net of tax) in 2007 with approximately \$1,000 (net of tax) charged to expense in the quarter ended March 31, 2007.

**Note 8.** Recently Issued Accounting Pronouncements

In February 2007, the Financial Accounting Standards Board (“FASB”) issued SFAS No. 159, The Fair Value Option for Financial Assets and Financial Liabilities – Including an amendment of FASB Statement No. 115, Accounting for Certain Investments in Debt and Equity Securities. This Statement applies to all entities and permits entities to choose to measure many financial instruments and certain other eligible items at fair value at specified election dates and report unrealized gains and losses for which the fair value option has been elected in earnings. This Statement is effective as of the beginning of an entity’s first fiscal year that begins after November 15, 2007. Early adoption is permitted as of the beginning of a fiscal year that begins on or before November 15, 2007, provided the entity also elects to apply the provisions of FASB Statement No. 157, Fair Value Measurements (see below). The adoption of SFAS No. 159 is not expected to affect the Company’s financial condition or results of operations.

Notes to Unaudited Consolidated Financial Statements

In September 2005, the FASB issued SFAS No. 157, Fair Value Measurements. This Statement defines fair value, establishes a framework for measuring fair value under generally accepted accounting principles (GAAP), and expands disclosures about fair value measurements. This Statement applies under other accounting pronouncements that require or permit fair value measurements, the Board having previously concluded in those accounting pronouncements that fair value is the relevant measurement attribute. Accordingly, this Statement does not require any new fair value measurements. This Statement is effective for financial statements issued for fiscal years beginning after November 15, 2007, and interim periods within those fiscal years. The Company is in the process of evaluating the provisions of the statement, but does not anticipate that the adoption of SFAS No. 157 will have a material impact on the Company's consolidated financial statements.

In June 2005, the FASB issued Financial Interpretation ("FIN") No. 48, Accounting for Uncertainty in Income Taxes – an interpretation of FASB Statement No. 109, which clarifies the accounting for uncertainty in income taxes recognized in an enterprise's financial statements in accordance with FASB Statement No. 109 – Accounting for Income Taxes. The Interpretation prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. This Interpretation also provides guidance on derecognition, classification, interest and penalties, accounting for interim periods, disclosure and transition. The provisions of this Interpretation will become effective for fiscal years beginning after December 15, 2006. The adoption of FIN No. 48 in 2007 is not expected to have a significant impact upon the Company's financial condition or results of operations.

Management Discussion and Analysis

**CRITICAL ACCOUNTING POLICIES**

The Company maintains its accounting books and records in accordance with accounting principles generally accepted in the United States of America. The preparation of the financial statements of the Company in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and sales and expenses during the reporting period. These estimates are based on information available as of the date of the financial statements. Actual results may materially differ from those estimated. The Company's critical accounting policies include the following:

- Capitalized software development costs
- Amortization of software development costs
- Revenue recognition

The Company accounts for internally developed software in accordance with Statement of Financial Accounting Standard (SFAS) No. 86, "Accounting for the Costs of Computer Software to Be Sold, Leased or Otherwise Marketed." The Company collects and segregates software development labor hours applied to design, development, quality assurance and product documentation associated with the software development process. All labor hours associated with the design and specification development process are expensed as incurred until a detailed design has been developed. All labor hours associated with coding, debugging, alpha testing, software bug corrections, quality assurance testing and documentation are eligible for capitalization under SFAS No. 86. Generally, the Company capitalizes approximately 70% of eligible costs based on an average actual cost per labor hour and charges the balance to research and development expense. On an annual basis, the Company evaluates its capitalized software for recoverability against the estimated future revenues over the next five years from the products or services. To the extent that more development costs are capitalized, the Company's net income will improve, and, to the extent that more software development costs are expensed instead of capitalized, the Company's net income will decline.

The Company amortizes its software development costs in accordance with the estimated economic life of the software, which generally is seven years. The Company's typical product lifecycle has been about 15 years, which was true for its prior film/fiche product line, CD-ROM product line and current Internet/Web product line, which has now been deployed for 13 years and is still growing. To the extent the actual useful life varies significantly from the estimated useful life, amortization expense may be understated or overstated. Generally, amortization expense averages approximately 13% of total sales.

Management Discussion and Analysis

The Company recognizes revenue in accordance with the American Institute of Certified Public Accountant's Statement of Position ("SOP") 97-2, "Software Revenue Recognition", as amended by SOP 98-4 and SOP 98-9 and Emerging Issues Task Force ("EITF") Issue No. 00-3, "Application of AICPA SOP 97-2 to Arrangements That Include the Right to Use Software Stored on Another Entity's Hardware" and EITF Issue No. 00-21, "Revenue Arrangements with Multiple Deliverables." The SOP provides that revenue may be recognized when persuasive evidence of an agreement (contract or purchase order) exists, delivery has occurred, the price is fixed or readily determinable and collectability is probable with some exceptions.

Revenue recognition policies vary according to the nature of the revenue. The Company's primary revenue stream is outsourced web hosting services, which are sold on a subscription basis. Generally, these large contract services are billed in advance on an annual, semi-annual or quarterly basis. Revenue is then recognized monthly as services are rendered. Revenues, which have been billed, and payment collected in advance are booked as deferred revenue until the services are provided and revenues earned. For certain small annual subscriptions, one-fourth of the annual revenue is recognized in the quarter the annual subscription is billed (or renews) and the balance is recognized evenly over the next three quarters in accordance with Statement of Position ("SOP") 97-2, "Software Revenue Recognition," as amended by SOP 98-4 and 98-9. Certain contract job processing services are progress billed and revenues recognized as the processing services are performed on a monthly basis. Certain software and hardware sales are billed when the product is shipped or access rights are provided to the customer. Certain revenue transactions may include multiple deliverables, which may or may not be separately priced. For deliverables which are not separately priced, the Company uses the relative fair values of the separate deliverables to allocate revenues. Each deliverable is then treated in accordance with the above revenue recognition policies depending on the nature of the deliverable.

#### Liquidity and Capital Resources

Working capital declined by \$249,000 to a working capital deficit of \$193,000 in 2007 down from a working capital surplus of \$56,000 in 2006 due primarily to the purchase of stock from a retired director in 2007 (See Note 6). Following the cash payment of \$542,000 for the repurchase of stock, the cash flow from operations of \$29,000 was insufficient to fund \$127,000 in capital expenditures internally, which resulted in a decrease in cash of \$98,000 to \$782,000 in 2007. The Company's excess cash is invested in uninsured investment grade securities on a short-term basis.

Management Discussion and Analysis

The Company's primary AGent™ product is sold on an annual subscription basis with fees for services billed to the customer and paid annually or quarterly in advance. These cash payments are received and booked to deferred revenue on the balance sheet to be applied as the monthly sales revenues are earned and recognized on a pro-rata basis. A growing percentage of sales (approximately 65%) of the Company's sales revenues are now being paid through customer advances without ever flowing through accounts receivable. Therefore, the average accounts receivable balance is lower than it would otherwise historically be and there is a substantial deferred revenue balance in current liabilities representing revenues to be earned from future services for customers who have paid in advance.

At December 31, 2006, the Company's principal financial commitments, other than its bank line of credit, involved the lease of corporate facilities in Pomona, California and in Toronto, Canada. Total commitments over the next six years total approximately \$1,675,000.

The Company's principal use of cash for investing activities during 2007 and 2006 were directed primarily towards continuing development of the Company's AGent™ and VERSO™ software and ASP (Application Service Provider) services. The Company invested \$216,000 in 2007 and \$243,000 in 2006 in software development of which \$100,000 and \$145,000 was capitalized in 2007 and 2006, respectfully. The remainder of investing activities of \$27,000 in 2007 and \$22,000 in 2006 was to acquire hardware and software used to expand and enhance online services to the Company's current and prospective ASP customers. Total capital expenditures and investments were \$127,000 in 2007 down from \$145,000 in 2006 due to lower outsourced software development in 2007.

Deferred tax assets and liabilities are recognized for the expected future tax consequences of events that have been reported in the Company's financial statements or tax returns. At December 31, 2006, the Company had available net operating loss carryforwards of \$2,552,000 for federal income tax purposes, \$1,139,000 for state income tax purposes and \$49,000 for foreign income tax purposes. These net operating loss carryforwards expire from 2020 to 2024 for federal taxes, 2012 to 2013 for state taxes, and 2010 to 2013 for foreign taxes.

In August 2006, the bank renewed and extended the Company's credit facility through May 1, 2008. The credit facility is composed of a \$500,000 revolving line of credit for working capital and a second \$1,000,000 five-year term facility to fund major investments. The interest rate on both credit facilities is the bank prime rate (8.25% at March 31, 2007) plus a 1.0% margin or 9.25% at March 31, 2007. The credit facility is secured by all of the assets of the Company and its subsidiary, A-G Canada Ltd. and requires that the Company maintain certain minimum financial covenant ratios. The Company was in compliance with all of its financial loan covenants, there

were no outstanding borrowings under either credit facility and there was \$1,500,000 in available credit as of March 31, 2007.

The Company has no so-called special purpose entities or off-balance sheet or derivative financing of any kind. All entities have been consolidated and all material intercompany accounts and transactions have been eliminated.

The Company has focused its resources on its core business of library services and is not soliciting new publishing customers. The Company's strategy is to offer ASP (Application Service Provider) services through outsourced web hosting to its library customers sold on an annual subscription basis. We believe that this is very attractive to our customers because it eliminates the large upfront capital investment, and ongoing technical management and technical staff requirements that the library would otherwise require and also provides an affordable and predictable monthly budget for the library. With a core of highly competent technical personnel, computer equipment and the Internet/Web, the Company can offer an efficient and very cost effective solution for the library. The majority (approximately 85%) of this subscription business also forms an ongoing stream of recurring business each year under multiple year contracts.

## RESULTS OF OPERATIONS

### First Quarter 2007 as Compared to First Quarter 2006

Net sales increased \$70,000 or 5% from \$1,271,000 in 2006 to \$1,341,000 in 2007 due to an increase in implementation and license revenues from new contracts including the SWiftnet consortium comprised of 32 public libraries in the Southwest Kansas Library System.

Cost of sales increased \$58,000 in 2007 or 20% over 2006 due to higher recurring variable costs associated with resale of third-party products and services, additional computer operation's staffing and additional software amortization. Cost of sales includes \$192,000 and \$185,000 in non-cash depreciation and amortization in 2007 and 2006, respectively. Gross margins declined to 74% in 2007 from 77% in 2006 for the above reasons.

Research and development increased \$18,000 or 15% from \$120,000 in 2006 to \$138,000 in 2007 due to additional staffing, recruiting and outsourced development costs. Research and development is presented net of capitalized software of \$100,000 in 2007 and \$145,000 in 2006. Gross research and development costs decreased \$27,000 or 10% from \$265,000 in 2006 to \$238,000 in 2007 due to completion of several new product development projects.

Management Discussion and Analysis

Sales, marketing and customer service decreased \$41,000 or 7% to \$532,000 in 2007 from \$573,000 in 2006 due to lower trade show and outsourced marketing costs.

General and administrative expenses increased \$12,000 or 5% from \$227,000 in 2006 to \$239,000 in 2007 due to higher legal expenses.

Operating income increased \$22,000 or 40% to \$77,000 in 2007 versus \$55,000 in 2006 due to an increase in net sales.

Interest/other income was \$9,000 in 2007 up from \$3,000 in 2006 due to investment income on short-term cash investments.

Provision for taxes based on income generally reflects minimum state tax payments and the effect of federal and state net operating loss carryforwards (See Note 3).

Net income was \$81,000 in 2007 up \$29,000 or 54% from \$52,000 in 2006 due to higher net sales and investment income. Basic and diluted earnings per share was \$0.02 in 2007 and \$0.01 in 2006.

#### Stock-based Compensation

Effective January 1, 2006, the Company adopted SFAS No. 123R, "Shared-Based Payment" using the modified prospective application transition method. The modified prospective method applies the expense recognition requirements of SFAS No. 123R to new awards outstanding at the effective date and does not restate prior periods for comparative purposes. The Company applies the Black-Scholes valuation method in determining the fair value of share-based payments to employees, which is then amortized on a straight-line basis over the requisite service period. The adoption of SFAS No. 123R did not have a significant impact on the Company's financial position, results of operations and cash flows. (See Note 7).
