

Year Founded 1950

Overview Auto-Graphics has been a technology innovator for more than five decades. Our technical ingenuity and reputation for service excellence make us a trusted partner to more than 6,000 customers throughout North America. Our flagship solution, the AGen[™] Library Automation platform, provides a suite of services designed to help organizations manage, share and search their resources.

Industry Experience Auto-Graphics provides resource management solutions to customers across multiple industries, including a range of library markets such as public, academic, school, special and consortia, as well as finance, publishing, aerospace and manufacturing.

AGent Solutions The AGen Library Automation platform is a suite of integrated products providing comprehensive resource management capabilities to institutions of any size. AGen offers a proven, standards-compliant, web-based technology architecture that is simple to install, use and maintain. The integrated product suite includes:

- AGen VERSO[™] - a complete integrated library system (ILS)
- AGen Resource Sharing[™] - A robust interlibrary loan (ILL) and consortial borrowing solution
- AGen Search[™] - a powerful federated search solution
- AGen Illuminar[™] – rich Internet application (RIA) patron user interface
